Breastfeeding Support Resources

South Orange County

Camino Health Center 
Affiliated with Mission Hospital, St. Joseph Health

You Can Make Plenty of Breastmilk

Breastfeed often, 10 or more times in 24 hours. The more you breastfeed the more milk you will make.

Watch your baby, not the clock. Feed your baby at the earliest signs of hunger. Hands near mouth, bends arms and legs, makes sucking noises, puckers lips.

Make sure baby's mouth is open wide when you put her on the breast.

Listen for swallowing when baby breastfeeds.

Avoid bottles and pacifier for at least the first month.

Wake baby if he is not nursing 10 or more times in 24 hours.

A newborn baby has only three demands. They are warmth in the arms of its mother, food from her breasts, and security in the knowledge of her presence. Breastfeeding satisfies all three.
~ Grantly Dick-Read

Hospital Resources
